Experience

Mechanical Design Engineer — Andes Manufacturing Corp. 2023 – Present
Precision components division

- Designed and validated CAD models for injection-molded components, reducing prototype iteration cycles by streamlining tolerance stack-up analysis.
- Led root-cause investigations for field failures, coordinating with suppliers to implement corrective actions that cut defect rates significantly.
- Mentored two junior engineers on GD&T standards and DFM best practices.

Quality Assurance Technician — Rioverde Foods S.A. 2021 – 2023
Production quality control

- Performed statistical process control audits across three production lines, flagging deviations before they reached shipment.
- Developed a lightweight inspection checklist that shortened line changeover downtime.

Education

Universidad de Costa Rica (UCR) 2016 – 2021
Bachelor's Degree in Mechanical Engineering San Pedro, Costa Rica

Instituto Nacional de Aprendizaje (INA) 2022
Technical Certification in Lean Manufacturing & Six Sigma Green Belt

Skills

SolidWorks, AutoCAD, GD&T, DFM/DFA, Minitab, Statistical Process Control, Six Sigma, Lean Manufacturing, ISO 9001, Root Cause Analysis, MS Project, Injection Molding, Supplier Quality Management

Extracurricular Activities

Volunteer Coordinator – Ingeniería Sin Fronteras CR 2022 – Present
Organized quarterly workshops teaching basic mechanical design to high school students in underserved communities.

Member – Club de Ajedrez UCR 2017 – 2021
Competed in inter-university tournaments; served as club treasurer for two years.
